SUBJECT INDEX

A

- Aldosterone, antidiuretic hormone and congestive heart failure, 431
- Atherosclerosis, chemical lesions of, 419

B

- Bacterial endocarditis, treatment of, 385
- Bundle-branch block, 467

C

- Cardiac arrhythmias and hemodynamics of the coronary circulation, 493
- Cardiac disease, congenital and acquired: open cardiomy for correction of, 441
- Chemical lesions of atherosclerosis, 419
- Chest wall, pulsations of as diagnostic signs, 421
- Circulation and the venous system, 483
- Congenital and acquired cardiac disease, open cardiomy for correction of, 441
- Congestive heart failure and aldosterone, antidiuretic hormone, 431
- Coronary artery disease, surgical methods in treatment of, 411
- Cor pulmonale: semantic consideration, with brief notes on diagnosis and treatment, 425

D

- Deformities of the thorax and disorders of the respiration and circulation, 449
- Disorders of the respiration and circulation in subjects with deformities of the thorax, 449

E

- Emphysema and heart, 375
- Evaluation of pain in the chest, 461
- Evaluation of surgical methods in treatment of coronary artery disease, 411
- Extrasystoles and premature beats, 489

H

- Heart disease and obesity, 371
- Heart disease, pre- and postoperative management of, 479
- Heart diseases, metabolic, 403
- Heart in emphysema, 375
- Heart, work of, 473
- Hemodynamics of the coronary circulation during cardiac arrhythmias, 493
- High output circulatory failure as a distinct syndrome, 389

L

- Left axis deviation, 437

M

- Metabolic heart diseases, 403

O

- Obesity and heart disease—a perennial problem, 371.
- Open cardiomy for correction of congenital and acquired cardiac disease, 441

P

- Pain in the chest, evaluation of, 461
- Pathogenesis of systemic arterial embolism in rheumatic heart disease, 399
- Pericardial disease, recognition of, 455
- Pre- and postoperative management of the patient with heart disease, 479
- Premature beats and extrasystoles, 489
- Present status of open cardiomy for correction of congenital and acquired cardiac disease, 441
- Problems in the evaluation of pain in the chest, 461
- Pulsations of the chest wall as diagnostic signs, 421

R

- Recognition of pericardial disease, 455
- Rheumatic heart disease and systemic arterial embolism, 399

S

- Shock of cardiac origin, 379
- Stokes-Adams seizures, treatment of, 393
- Surgical methods in treatment of coronary artery disease, 411
- Syndrome of high output circulatory failure, 389

T

- Treatment of bacterial endocarditis, 385
- Treatment of Stokes-Adams seizures, 393

V

- Venous system and its role in the circulation, 483

W

- Work of the heart, 473
